About the Carpet Care Module

Businesses invest a substantial amount of money in carpets for the workplace and it is imperative to correctly maintain them in order to keep them looking their best. Our Carpet Care Control Module will help you to identify the characteristics of a variety of carpets to ensure you choose the right cleaning and maintenance methods and products.

It's no secret that carpet care is challenging and this course will give you a whole host of practical advice. This module will help you prevent soil from entering the environment in the first place, as well as three magic steps to maximize your vacuum efficiency.

Once you have completed this course, you will be able to develop an effective cleaning programme that will ensure your carpets maintain aesthetic value and functionality. Understanding the processes involved in carpet maintenance will help you minimise the effect of carpet deterioration and improve your understanding of any problem areas you may find.
